

ANEESH PATIL

SOFTWARE ENGINEER | FULL-STACK · BACKEND · CLOUD

Japan | hello@anee5h.com

anee5h.com | github.com/anee5h | linkedin.com/in/anee5h

PROFESSIONAL SUMMARY

Software engineer with 5+ years of IT experience, including 4+ years building production web applications in Japan. Deliver full-stack applications using React/TypeScript, Node.js/Python, APIs and AWS, from technical design through automated testing, release and maintenance. Experience includes data migration, cloud modernization and leading a six-person integration team. Fluent in English; JLPT N2.

TECHNICAL SKILLS

Frontend React · TypeScript · JavaScript · HTML/CSS · Vite · Astro

Backend & APIs Node.js · Python · REST APIs · Zendesk Apps Framework

Cloud & Data AWS (Lambda, API Gateway, CloudWatch) · Cloudflare · SQL · PostgreSQL · MySQL · Supabase

Testing & Tools Playwright · Vitest · Jest · Autify · Git/GitLab/GitHub · AWS SAM · PHP · jQuery

PROFESSIONAL EXPERIENCE

Eclect Co., Ltd. (株式会社エレクト) | Software Engineer | Jun 2024 – Present

- Primary engineer on 12+ production web apps and 20+ enhancements/fixes; handled up to five projects concurrently.
- Independently built a Python pipeline migrating 10,000+ Zendesk tickets through export, transformation, import, verification and deletion.
- Sole engineer upgrading seven AWS Lambda functions from Python 3.10 to 3.14, including SAM, asyncio compatibility, testing and dev/prod deployment.
- Introduced Playwright E2E tests with reusable fixtures/mocks and Allure/Monocart reports to catch regressions.
- Built Zendesk workflow and RAG reply-assist apps; integrated external REST APIs and a Bedrock-backed summarization API.

Seaparts Co., Ltd. (株式会社シーパーツ) | System Engineer / Project Leader | Apr 2022 – May 2024

- Led a six-person system integration project across business applications, covering estimation, requirements, UI/database design, implementation and delivery.
- Maintained vehicle-recycling web systems; migrated PHP 5 to PHP 8, contributed to ~150 responsive pages, and introduced Autify E2E testing.

Amazon Development Centre (India) | Associate, Digital Process JP | May 2021 – Apr 2022

- Analyzed Amazon Japan Kindle data/pricing with SQL, Python and Excel; improved reports, SOPs and recurring operations.

INDEPENDENT PROJECT

Meguruto | Japan travel discovery and itinerary planning | <https://meguruto.app>

- Independently build and operate a web product combining destination, transport, travel-time and budget data to support recommendations and trip planning.
- Own React/TypeScript UI, Supabase data/auth, Cloudflare deployment, API integrations and EN/JA experience; test with Playwright and Vitest.
